It's been reported that Windows Phone 7 SDK 9 is just a slightly modified version of Windows Phone 7 SDK 10. In most cases, this would make no more sense as these SDK's would be the same across the platforms. However, for this version of the Windows Phone 7 SDK, that's not the case. You can refer here to the version 12.1 .1 released on 19th June, 2014 (it's still the 10.1, but without the 'Wii') which means the change has taken place when the SDK has been renamed to what we would call Windows Phone 7 API 10.0/11..... Read MoreBy Ben Fritz In the week leading to the annual meeting of World Rugby, the latest edition of the global rugby league league competition, Australia are taking on England in a three-match tour of New Zealand to compete with our two rivals.. For those interested, the original name that Windows Phone 7 SDK 9 has in the Windows Store is Windows Phone 7 SDK 10.0.. For those wondering about this, it's worth noting that this is not the whole explanation for 'Windows Phone 8 SDK 14.0'. Microsoft have a developer toolchain called 'Windows Phone SDK 14.0'. We're talking about the 8.0 Developer Kit which you can find at the right hand side of this blog post (and in our Windows Phone store)..
